## Reason why?

A variety of reasons, the most popular being:

- Council should support the project
- To help get the project started, the rest to come from the lottery and community
- Bowls, tennis courts, play grounds were paid for by the council
- The Parish Council is in a strong financial position at the moment
- Worthwhile project for our community and the kids

For balance, negative comments included:

- The council have many things to fund and I think they should only make a small donation to any single project
- The council has enough areas to be spending the taxpayers money on
- Should be paid for by a lottery grant
